

Uptown North Orange Form-Based Code (UNO-FBC)

For
Round Hill Development Corporation
The Town of Orange, VA

Prepared by:

Galvin
ARCHITECTS
(Code content development, organization, page layout and graphics.)

In Association with:

 **Wassenaar Design Group, P.C.**
Architecture Planning Engineering
(drafting, document production.)

Limehouse Architects, LC
(site design and conceptual Master Plan.)

 **THE COX COMPANY**
(engineering and code content development.)

Uptown North Orange Form-Based Code (UNO-FBC)

TABLE OF CONTENTS

I. Introduction	Page 1
A. Historic and Policy Context.	
B. Essential Concepts & Purpose.	
C. Overview and Use of this Document.	
D. Glossary of Terms	
II. Regulating Plan	Page 21
A. Project Intent & Function	
B. Components and Project Wide Rules for Development	
1. Transect Map Diagram-Regulatory	
2. Thoroughfare Map Diagram-Regulatory	
3. Open & Civic Space Diagram-Illustrative	
4. Conceptual Master Plan-Illustrative	
5. Master Matrix of Urban Design Standards-Regulatory	
III. Public Space Standards	Page 35
A. Intent & Function	
B. Components of the Public Space Standards	
1. Public Frontage Type Standards	
2. Thoroughfare Type Assemblies and Standards	
3. Open & Civic Space Type Standards	
4. Streetscape Standards-Regulatory	
o By Public Frontage Type.	
o Surface Treatments and Furnishings.	
o Plantings.	
o Public Infrastructure.	
o Outdoor Lighting.	
o Signage.	
5. Parking and "Great Thoroughfares"	
C. Public Space Standards Applicable to SD15	
IV. Building Envelope Standards	Page 69
A. Intent & Function	
B. Project-wide Components of the Building Envelope Standards	
o Private Frontage Types	
o Encroachment Types	
o Building Types	
C. Transect Zone Components of the Building Envelope Standards and Guidelines	
1. General Description	
2. Building Placement	
3. Parking Placement	
4. Height & Façade Openings	
5. Indentations & Encroachments	
6. Building Lot Types	
7. Standards Applied	

Uptown North Orange Form-Based Code (UNO-FBC)

TABLE OF CONTENTS

V. Land Use	Page 123
A. Distinguishing Land Use Features of a Form-Based Code	
B. Allowable Land Use Types by Transect Zone	
C. Land Use and Parking by Transect Zone	
1. Parking Goals	
2. Alternative Parking Standards-Regulatory	
o Street and Alley Parking.	
o Shared Parking.	
o Stand Alone Parking.	
o Transportation Demand Management.	
3. Parking Requirements by Land Use Type and Transect-Regulatory	
o Shared Parking Factors: Definition.	
o Required Methodology-Regulatory.	
o Application-Illustrative.	
D. Development Program for Uptown North Orange	
1. Relationship to the Regulating Plan	
2. Estimated Build-Out Capacity and On-Site Parking Requirements (not applicable to SD15)	
a. Calculating Minimum Non-Residential/Residential Mixed Square Footage.	
b. Calculating Maximum Residential Only Unit Counts.	
c. Calculating Total Parking Requirements.	
d. Summary Results.	
3. Land Use Types within the Non-Residential Use Category	
4. Developer/Applicant Discretion and Administrative Requirements.	
VI. Administration	Page 147
A. Internal Design Review Process	
B. Urban Design Review Committee	
C. UDRC Rules of Operation	
D. The Application Plan	
E. Summary	
VII. Appendices	Page 159
A. Landscape Guidelines & Standards	
B. Best Practices, Utility & Public Infrastructure, Erosion & Sediment Control Standards	
C. Outdoor Lighting Guidelines and Plan Requirements.	
D. Outdoor Signage Guidelines.	
E. Historic and New Urbanist Precedents:	
1. Building Scale; Height, Number of Stories, Transparency and Private Frontages	
2. Building Placement; Front and Side Setbacks and Encroachments	
3. Public Frontages; Planting Strips and sidewalks.
